Dear Gene,

Here's the copy you asked to see of my "theoretical" piece for TDR. The acting-exercises with graphic material start on p. 34.

I greatly appreciated your devoting the time and resources of your workshop to work on my ~~Wandering Jew~~ script last Saturday; it was an exhilarating experience. Most of all I appreciate your own efforts to get at what was promising/problematic in the material. I'm looking forward to hearing your responses to the rest of the play.

Yours,

David Cole
